- Extensive information in crafting responsive websites using HTML, JavaScript, and CSS, with a keen eye for design. Skill full in implementing Bootstrap and material design patterns to create visually appealing and user-friendly internet interfaces.

#### CORE COMPETENCIES

##### Functional:

Requirement Gathering, Client Relationship Management, Process Improvement, web and application, Defect Management, Training & Development

##### SharePoint Expertise:

Intranet Collaboration, Portals, Enterprise Search, Content Management, Business Process Automation, SharePoint 2007/2010, SharePoint 2013 (partial compliance)

##### Microsoft Technologies:

.NET Technologies (ASP. NET, C#), XML, SQL Server

##### Development:

Full Software Development Life Cycle (SDLC)

##### Administration:

Farm Administration, Infrastructure Administration

##### Tools:

Microsoft Office InfoPath Forms Services, Application Templates, Master Pages

##### Soft Skills:

Strong Design and Development Skills, Excellent Presentation and Communication, Organizational Abilities, Proven Leadership Skills

##### Technical:

Angular, React Native, Web API, MS SQL Server, Visual Studio, Windows, Post Man, Html, CSS, JavaScript, UI/UX: Figma Others - GitHub, Microsoft office, Microsoft word, Excel sheets.

#### AREAS OF EXPERTISE

- Designed and advanced Web programs and Web APIs with skill ability in ASP.NET, Angular, React Native.
- Expertise in guide trying out and API testing the use of tools such as Postman and Swagger.
- Contributed to various initiatives on GitHub, demonstrating information in a wide variety of Git operations.
- Hands-on experience in growing responsive websites using HTML, JavaScript, and CSS.
- Developed visually appealing websites by way of enforcing Bootstrap and fabric layout patterns.
- Utilized AWS S3 for effective aid management.
- Well-versed in Scrum/Kanban improvement fashions, making sure a success challenge transport.
- Expert in expertise and taking part with customers on adjustments, requirements, and software-related troubles.
- Preparation of requirement document, test summary and sign-off document.
- Active participant in daily stand-up call with BA and management
- Interacting with developers, Business & Management Teams.

## EMPLOYMENT RECITAL

### April 2022 – 2023; OrderStack(Software Engineer)

#### **Key Deliverables:**

- Gathering requirements from client and accordingly testing the application
- Involved in end-to-end development of products based on client's needs.
- Presenting the project work status and application demos to key business stakeholders.
- Mobile application developed in React Native.
- Have developed websites based on this application in Angular.
- REST API and API binding in Angular, React native.
- Have expertise in manual testing and API testing using tools like Postman, Swagger.
- Contributed on various projects using GitHub as the source controls (Knowledge in most of the git operations).
- Developed a website using Angular, Bootstrap, Angular Material...
- Created wireframes for new projects ideas using Figma, canvas etc.
- Projects handled where in the following technologies - C#, Angular, Visual Studio, React Native, Dot Net, MS SQL.

### SEP 2021 – APRIL 2022; QUEST INNOVATIVE SOLUTIONS(INTERN)

#### **Key Deliverables:**

- Developed dynamic web-based applications using a diverse technology stack, including Python, Java, HTML, Angular JS, CSS, JavaScript, JSON, and jQuery.
- Applied a strategic blend of these technologies to create efficient, user-friendly, and feature-rich web solutions.
- Utilized Object-Oriented principles to design and implement server-side components, enhancing the modularity and extensibility of the codebase.
- Demonstrated expertise in choosing and applying appropriate design patterns to address specific architectural challenges, resulting in optimized and well-structured systems.
- Engaged in comprehensive testing and debugging processes to guarantee the reliability and performance of the developed frameworks. Collaborated with cross-functional teams to integrate seamlessly with back-end systems, delivering end-to-end solutions.

## SCHOLASTICS

Bachelor's degree in computer science and engineering from APJ Abdul Kalam Technological University, Kerala in 2021
